

Your new British Airways lounge at Schiphol Amsterdam is now open

Welcome to a more luxurious experience when you fly British Airways via Schiphol Amsterdam airport.

Our new lounge, designed exclusively for British Airways customers, is a quiet haven where you can work, relax or dine as you please in smart and welcoming surroundings. With contemporary details and designer furnishings, the lounge reflects the style and elegance of our flagship lounges at London Heathrow Terminal 5.

Visit our Lounge and enjoy a range of great features including:

- New reception area with contemporary lighting and finishes
- Comfortable and private velvet wing-back chairs
- Power points throughout the lounge, allowing you to work from almost any seat
- Wireless connection that enables you to print from your personal device
- Stunning panoramic views of the airport apron
- Café style dining that is perfect for informal business meetings

Re-locating from its previous location, you'll find our new lounge – lounge 40 – on the top level floor of the terminal building. The move is part of a major transformation programme at Schiphol Amsterdam airport. The current project to improve the customer airport experience as a whole means the lounge's finishing touches and brief 10 minute walk to the gate will be completed on 20 April 2015.
