

## CAPE ARGUS PICK 'N PAY CYCLE TOUR

The safe and efficient transportation of your bicycle to and from Cape Town is of the utmost importance to British Airways (operated by Comair). As always, we will ensure that your bicycle receives the same high quality service and care that customers have become accustomed to when flying with us.

### Cape Argus Pick 'n Pay Cycle Tour bicycle transport procedures – Race Day: 10 March 2013

The procedures below will ensure that your bicycle gets to Cape Town safely. Please ensure you read through the procedures and if you have any questions, please contact British Airways (operated by Comair) on 0860 1 FLY BA (0860 4 359 22) or 011 921 0222 and press option 1 to book and pay for your bicycle transportation.

The handling fee for your bicycle will **cost R300 per bicycle, per flight sector.**

The handling fee needs to be paid before your departure date by calling the British Airways Contact Centre on 0860 1 FLY BA (0860 4 359 22) or 011 921 0222 and pressing option 1. Proof of payment will be sent to you via email, unless otherwise stated by the Contact Centre Agent.

**British Airways Contact Centre operating hours:**  
**Monday to Friday 7am to 7pm,**  
**Saturday 8am to 3:30pm**  
**Sunday 8am-1pm.**

**Payment will not be accepted on the day of departure at the airports.**

### Important information for all riders

- In order for us to accept your bicycle you must please produce your booking reference number and proof of handling fee payment.
- We recommend that you place your bicycle on your private insurance.
- Ensure you have your flight reference number, bicycle handling fee proof of payment and your ID book with you.
- When bicycles are collected after the race from the applicable area, please note they will not be released to family members or friends as they will not be in possession of the handling fee document and your ID.

- We will make every effort to have your bicycle in Cape Town before you, or on the same flight as you, but this is not always possible due to the amount of bicycles transported and the space restrictions on our aircraft.
- Due to the large volume of bicycles we need to get back to the various destinations, your bicycle might not be on the same flight back as you so please allow 2-3 days for us to get your bicycle home. Please call the relevant station to ensure your bicycle is there before you go collect it.

### How to pack your bicycle

- In order to ensure your bike is delivered in perfect condition, please take special note of the following packing procedures:
- The seat must be put down.
- The handlebars must be turned parallel to the frame.
- Leave the front wheel attached.
- Pedals must be removed or turned inwards.
- Deflate your tyres (please do not pump with nitrogen as they will not be accepted for carriage on the flight).
- Your bicycle must be placed in a bike bag or box, or wrapped in bubble wrap.
- Bicycle inflation pumps filled with division 2.2 Carbon Dioxide non-flammable gas will be accepted for transportation as checked baggage only. The maximum amount per passenger is limited to four 16 grams cartridges. Cartridges larger than 16 grams will not be permitted for carriage.
- Remove any speedometers or any electronic equipment and carry that with you in your hand luggage.
- Wheel-bags can't be carried as hand luggage, they must be checked in.
- Spare wheels need to be packed properly before check in.
- At check in, the spare wheels will be tagged with a limited release tag.
