

Announcing an exciting new airline partnership in India

British Airways is delighted to announce a new partnership with Vistara in a codeshare agreement that brings your customers even better connections and schedules across India.

New codeshare flights

Customers can book the 13 new codeshare flights from 06 September 2018 to various destinations from Delhi, Mumbai, Hyderabad, Chennai and Bengaluru. The first outbound flight will depart from 27 September 2018.

British Airways will add its 'BA' designator code to approximately 60 Vistara-operated flights each day covering thirteen Indian cities, including eight new virtual British Airways destinations, namely Ahmedabad, Amritsar, Bhubaneswar, Chandigarh, Goa, Kolkata, Kochi, and Pune. Additionally, the BA code will also be put on Vistara flights between Mumbai and Amritsar, and Chennai and Kolkata.

These codeshare flights will offer convenient connections to and from the seven daily flights that British Airways already operates to Delhi, Mumbai, Hyderabad, Chennai and Bengaluru, directly from London Heathrow.

How your customers benefit

As well as having a greater choice of destinations and schedules across India, your customers can:

- Enjoy British Airways' generous baggage allowance on the Vistara codeshare flights
- Choose to stop over in Delhi, Chennai, Bengaluru, Hyderabad or Mumbai when they book flights on a connecting basis
- Avoid the hassle of booking separate flights; tickets will cover the entire journey from checking in at the airport to arriving at their final destination
- Take advantage of a seamless airport experience thanks to easy transfers at Delhi Terminal 3 and Mumbai Terminal 2
