

At British Airways, we know that tastes differ. That's why, everyone booking a seat in World Traveller to selected destinations (see [ba.com](http://ba.com)) will be able to choose and purchase their own in-flight meal before flying with us.

By choosing a World Traveller pre-paid meal you can select from a range of mouth-watering options at [ba.com](http://ba.com) as an alternative to the complimentary in-flight meal. Menus will be available to browse and order from within 30 days of your flight's departure. Drinks are included at no extra cost.
