

Club Europe now available within the UK

We're introducing Club Europe, our short haul business class, to flights within the UK and replacing UK Domestic with Euro Traveller as the economy cabin.

This change aligns our cabins across our short haul network and enables customers connecting to or from a long haul destination to enjoy a consistent premium experience throughout their journey.

Tickets are now available to buy for travel from 1 April 2017.

EURO TRAVELLER BENEFITS

When travelling in economy, customers will be able to have the same travel experience as previously in UK Domestic (Basic and Plus fares). What's new is that they can now take advantage of the Plus Flex fare that offers:

- ability to choose their seat for free from the moment they book
- more Avios and Tier Points than Basic and Plus
- a full refund if they need to cancel their flight
