

INTRODUCING OUR NEW CLUB SUITE

We're proud to unveil our luxurious new Club Suite. Business class upgraded and reimagined for your customers' modern travel needs.

BRITISH AIRWAYS

Club World

NEW LEVELS OF COMFORT

The new Club Suite features retractable dividers for centre seats and privacy doors as part of the thoughtfully considered design, meaning customers can adjust their vista and switch between a social or more private setting. The introduction of direct aisle access to all suites provides greater privacy and freedom than ever before in Club World.

Each suite is ergonomically engineered to optimise comfort and practicality. The plush interior features intelligent storage, increased stowage and luxuriously soft bedding courtesy of another iconic British brand The White Company. Combined, this creates a personal space with a real sense of freedom.

Seating can be effortlessly adjusted using the intuitive touch screen controls to move between lounging and dining positions, or the fully extended 79 inches of the new longer bed. There's non-stop entertainment available on the minimum 17 inch HD screen and a menu of restaurant style fine dining is hand delivered to customers' suites by our welcoming and professional crew.

IT'S THE BUSINESS CLASS TRAVEL YOUR CUSTOMERS HAVE BEEN WAITING FOR
