

## Introducing The First Wing

Exclusive to our home at London Heathrow Terminal 5, we'll be soon introducing a new premium zone to welcome customers to their First experience.

Set to open in April 2017, The First Wing will provide a dedicated area that helps customers speed up the process through the airport and maximise moments of comfort, relaxation and indulgence.

Located where our First check-in area is today, The First Wing will feature an enhanced, private check-in area and two exclusive security lanes for customers travelling in First, Executive Club Gold and **oneworld** Emerald members. What's more, customers will be able to use a new direct walkway that will lead them seamlessly into the Galleries First Lounge and then the Concorde Room.

We're doing our very best to minimise disruption while building works take place and look forward to welcoming customers to The First Wing soon.
